

17 finished. None approved to energize.

Seventeen large loads have finished every process the grid operator runs and hold no approval to switch on. The reason is a questionnaire.

The half you can read names nobody.

ERCOT MARKET NOTICE

M - A080326 - 04

Batch Zero Conditional Classification issued to Transmission and/or Distribution Service Providers

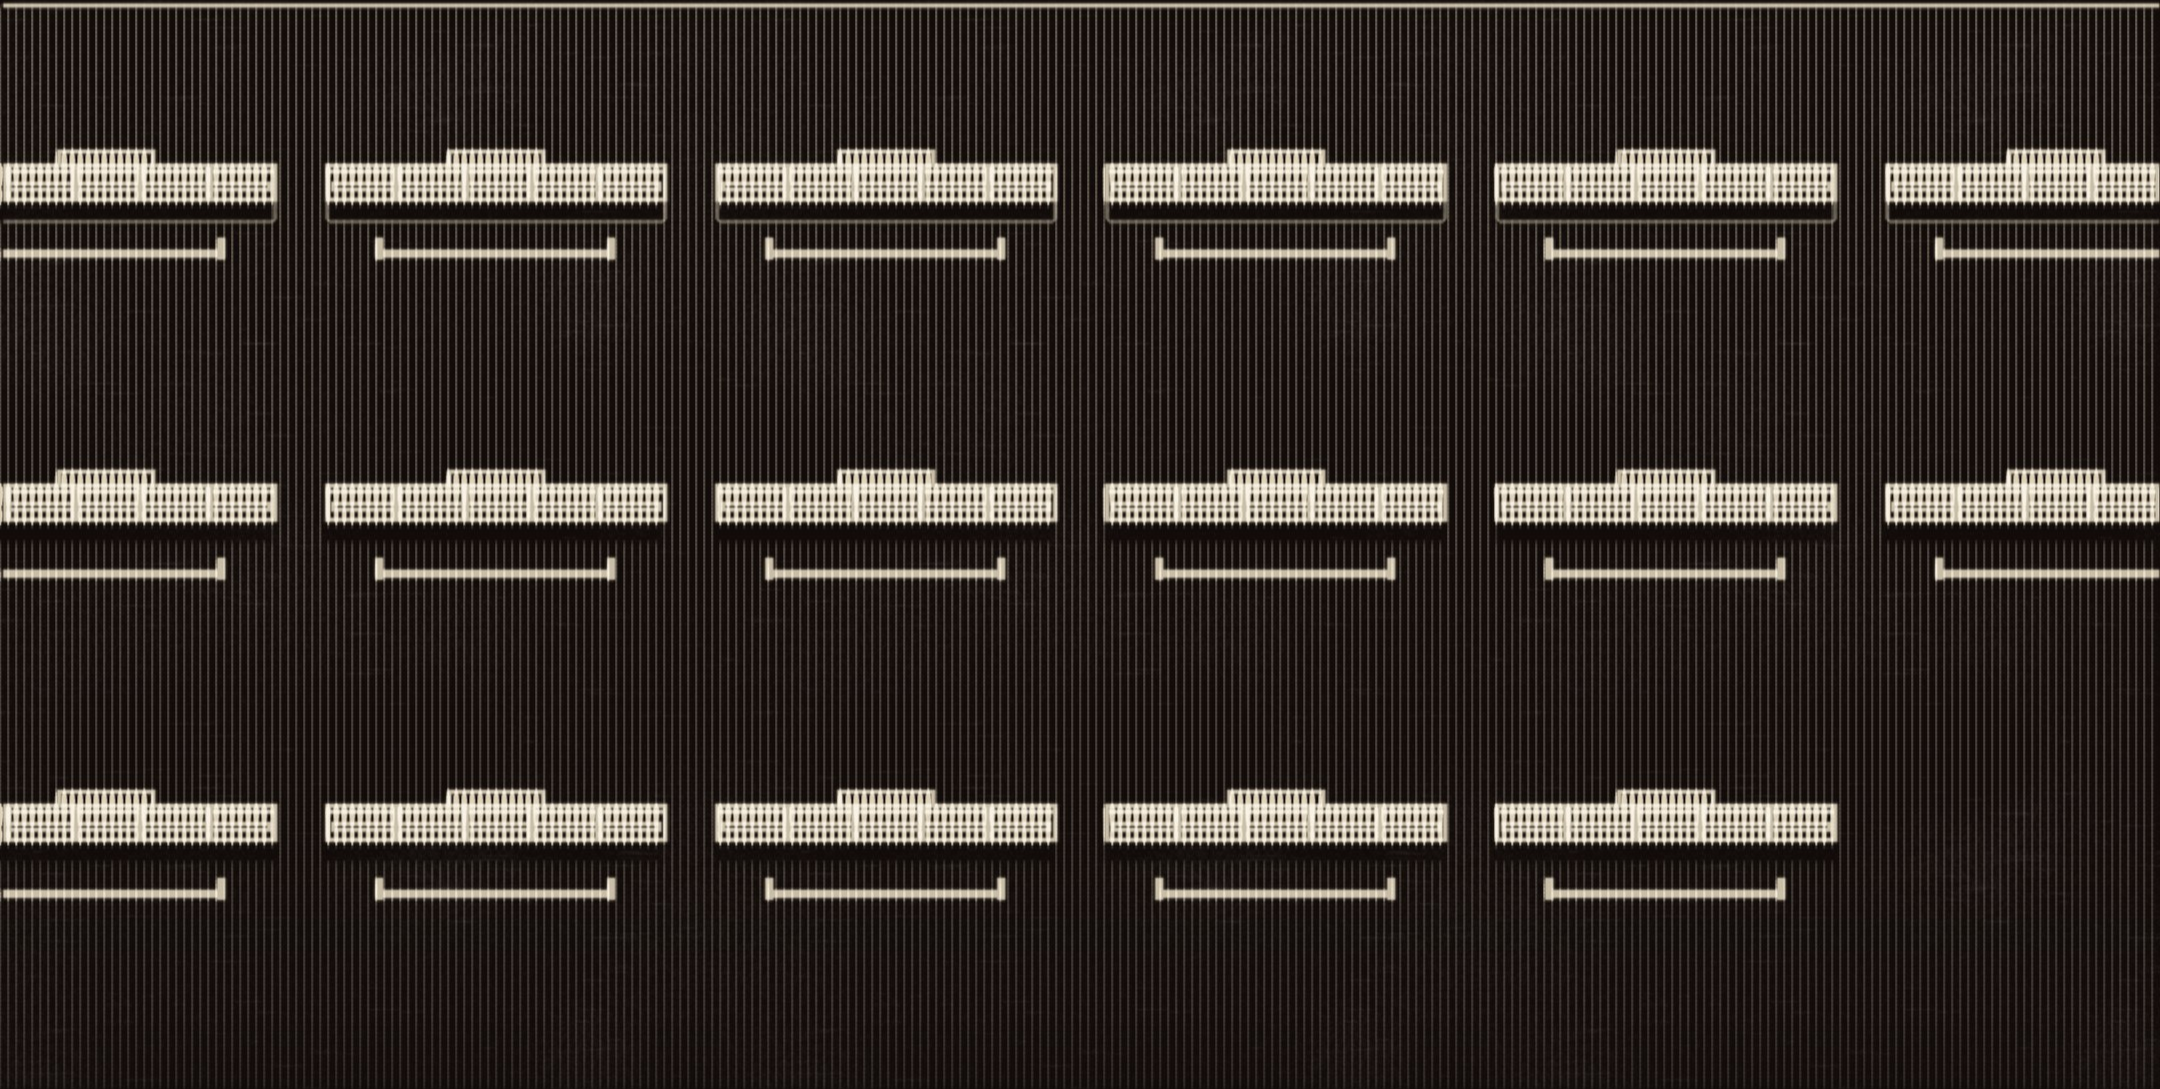

the Interconnecting Large Load Entity (ILLE) passing verification, the ILLE curing deficiencies in dynamic model data, or the Public Utility Commission of Texas (PUCT) granting ERCOT a good cause exception

Failure to satisfy any applicable condition may disqualify the Large Load from Batch Zero.

From c23 c24 c25. Each provider was told how its own loads were classified. This notice carries no name.

Count them. That is 6,608 megawatts.

A large load is 75 MW or greater. These seventeen have finished every process the grid operator runs and hold no approval to energize.

6,608 MW

MODELED, A FIVE YEAR PROJECTED PEAK

Each party finds a notary.

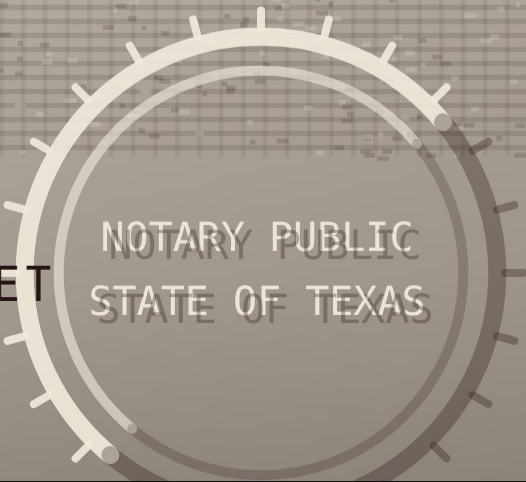

All information submitted will be treated as confidential to the extent permitted by law.

LOAD ENTITY

DISTRIBUTION SERVICE PROVIDER

TRANSMISSION SERVICE PROVIDER

From c5 c6. A response is not complete until all three have filed a notarized attestation.

Ten business days, and it locks.

10 BUSINESS DAYS

OR THE LOAD COMES
OFF BATCH ZERO

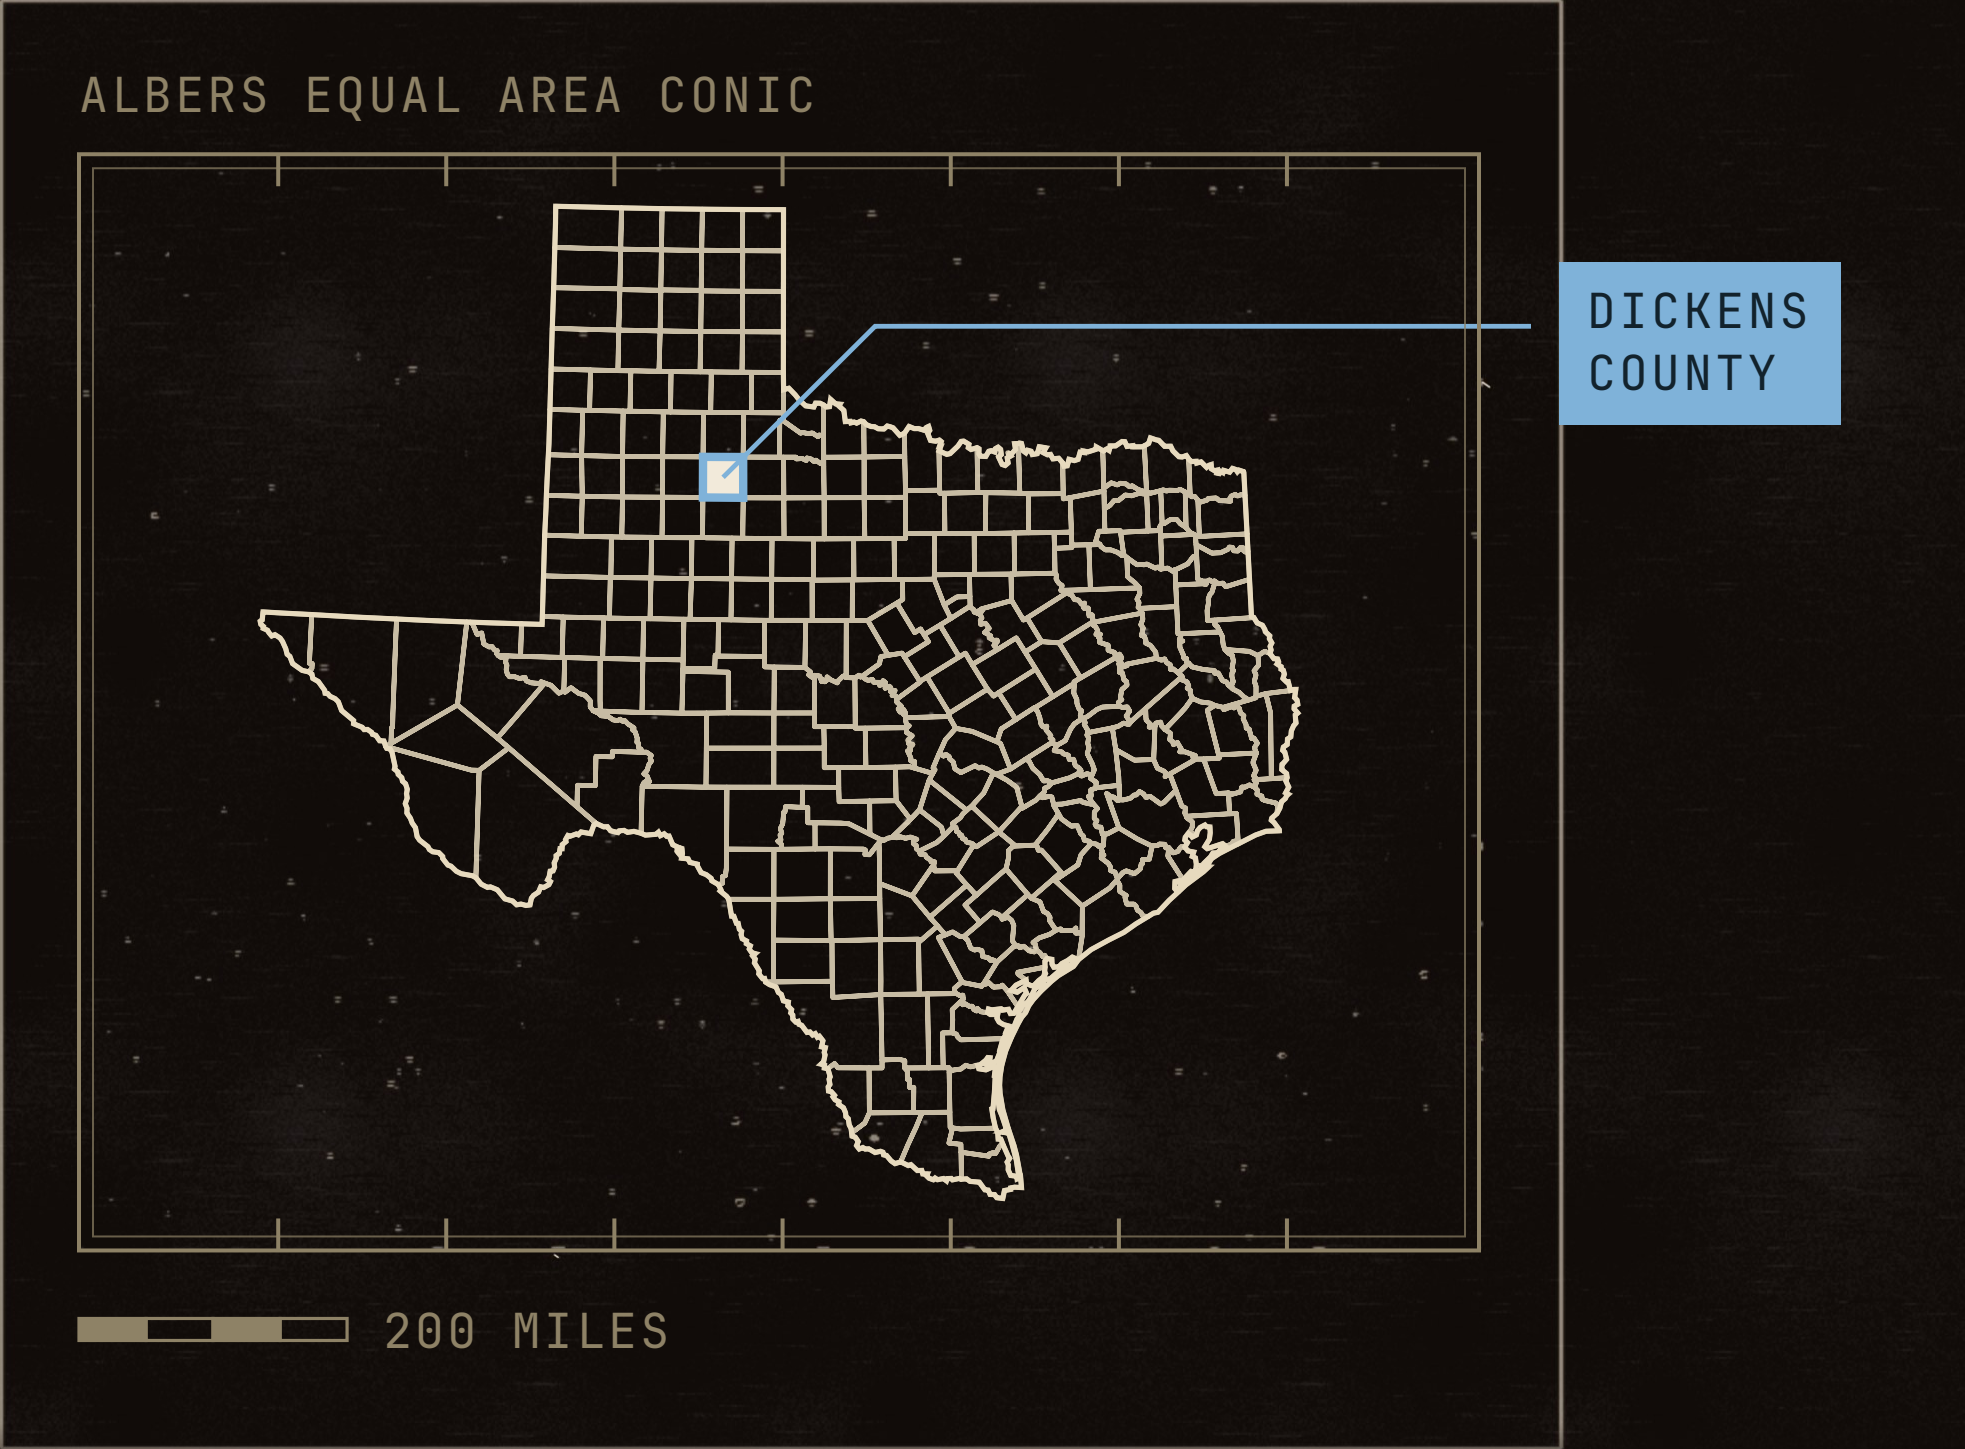

Three roles. Three different sets of questions.

The load entity, the distribution provider and the transmission provider each answer the sections their own role is given. Which sections a project sees depends on the classification it was handed.

Dickens County, because they said so.

The campus this record can name sits in the panhandle region of West Texas. The record knows that because the company published it, and not because any list did.

Filed one way. Classified another.

GALAXY DIGITAL INC.

RELEASE

Galaxy Provides Update on ERCOT Batch Zero Large Load
Classifications

Galaxy submitted Caspian as Base Load

the project has been conditionally classified as Studied Load

From c30, one sentence in the release, set here
as its two halves.

Studied Load projects are subject to capacity allocation as part of the study

the possibility that a classification is modified, withdrawn or not confirmed

The filings are public. The answers are not.

HEARING ROOM

7-100

Project 59142 is the commission's review of the grid operator's interconnection processes for large loads, and anyone can read what is filed in it. The commission's calendar carries an open meeting on September 17th, in **Commissioners Hearing Room 7-100**, open to the public.
