the entire Texas A&M System

QUOTED FROM VISION.TAMUS.EDU

The chancellor's own sentence about the same machine, in the System's newsroom, says VISION "gives our 12 universities and eight state agencies access to computing power that most institutions could never build alone".

"Current Status: Controlled Beta"

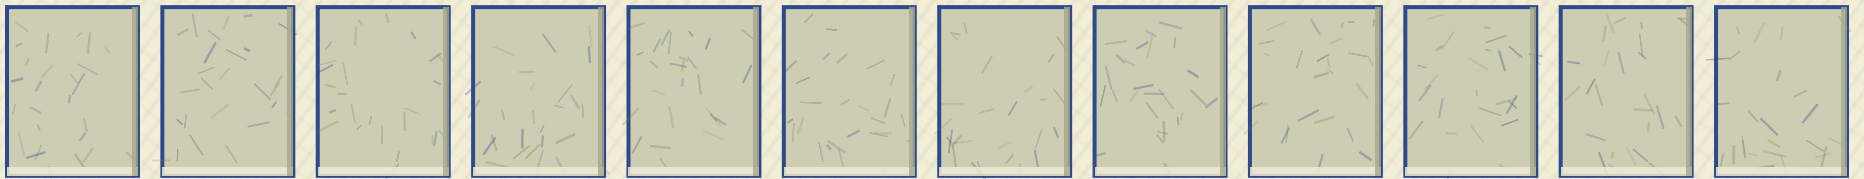

The documentation for the same machine says access is invitation-only and approved via TAMUS governance. The testing page says the beta is being finalized as they prepare for general availability.

"FEATURES AND TOOLS ARE EVOLVING; BETA MAY NOT
GUARANTEE FULL SUPPORT OR CAPACITY"
