

Austin's order names six kinds of equipment.

The city manager is directed to acquire, deploy and activate it. The list is not limited to them. One property is written out of two of the six it names.

A plan is ordered. Its basis is on file.

The implementation plan has to rest on a July 2025 security audit the parks department already had done.

PLANNED OPERATIONAL AND CAPITAL IMPROVEMENTS	PRIORITY LOCATIONS	RESPONSIBLE PARTIES	FUNDING MECHANISMS	IMPLEMENTATION TIMELINES

The resolution says what the plan must establish. The plan itself is not in it.

What the plan has to establish

Which parks go first.

"Parks with a history of violent crime shall be prioritized for the initial deployment of this equipment." The mount is bare.

April had already listed the tools.

Artificial intelligence or machine learning tools sit among what is not permitted in City Code Chapter 2-19. The exception is whatever the city’s own policy allows.

CITY CODE 2-19-9 NOT PERMITTED (B) ARTIFICIAL INTELLIGENCE

The clause reaches the foot of the resolution's first page.

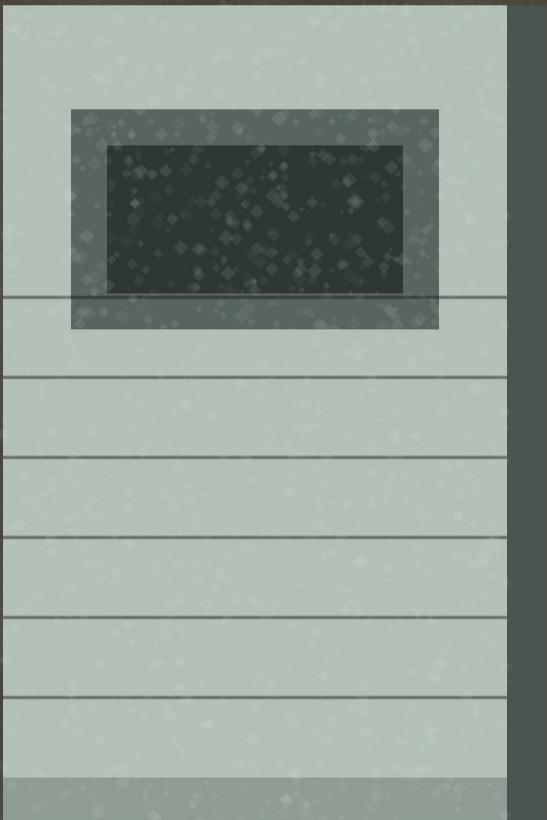

The City Manager shall not consider acquisition of any camera or drone system that depends upon artificial

intelligence to conduct surveillance or analysis.

TEXAS AI DOCKET

The clause finishes at the top of page two. It reaches a camera or drone that depends on artificial intelligence to do those two things. April had already listed those tools as not permitted. That listing carries an exception and this clause carries none.

including training of artificial intelligence

no less than four weeks before the city council meeting

SECTION 2-19-4(C), TEN NUMBERED FACTORS

any one of them shall weigh strongly against

a determination of minimal risk

ORDINANCE 20260423-029 / SECTION 2-19-4

DECEMBER 9TH, 2026

Council Climate, Water, Environment, and Parks Committee

The city manager owes that committee a progress update by then. The council's own action notes record the item approved and publish no tally.

ACTION NOTES AUGUST 12TH, 2026 / no tally published
