THE THRESHOLD IS THE DEFINITION

A number does the work a name would do.

"An entity with a total non-coincident peak demand at a single site that is equal to or greater than 75 megawatts (MW)."

75MW

no upper
bound

16 TAC Section 25.521, proposed

The rule as published in the Texas Register does not contain the words data center.

WHAT THE RULE WOULD REQUIRE

"ERCOT must develop a Large Load Demand Management Service (LLDMS) to competitively procure demand reductions from large load customers consistent with this section."

16 TAC Section 25.521, proposed
